SOUNDCHECK

As we don't travel with a Sound Engineer, please make sure the House Engineer is on site at the designated load-in time. Please can we have at least **45 mins for soundcheck**. We have a large, atmospheric, textural sound so clarity is very important to us. We take queues from SYNTH 2 - KORG, so please ensure this is louder in our monitors.

LIGHTING

Where possible, please fill the venue with **haze** before our show starts - don't be shy! If your smoke machine is loud, please only use it in the loud sections of the music. Please treat all band members equally and ensure that they are each illuminated. We like **pinks, yellows, greens, blues**. Please feel free to mix colours. We also require a **projector** as we bring our own visuals.
